General Information:

STRATA TW is designed to deliver balanced performance, making it an ideal solution for medium-scale architectural installations. Its refined form factor allows for seamless integration into a variety of environments, supporting both functional and ambient lighting applications.

Utilizing advanced dual CCT technology, it enables smooth and precise transitions between warm and cool color temperatures, allowing designers to tailor the lighting atmosphere to suit different times of day, tasks, or moods. This flexibility enhances visual comfort while maintaining consistent light quality throughout the adjustment range.

Engineered for versatility, STRATA TW supports dynamic lighting schemes with reliable performance and intuitive control. Its combination of adaptability, efficiency, and seamless ambiance control makes it a dependable choice for projects that require both aesthetic sensitivity and functional precision.
