LUMABAR NSW

RGBW

Fixture Type:

Project Name:

Notes:

General Information:

LUMABAR N SW is designed to deliver precise and consistent color rendering across extended distances, making it an excellent choice for refined architectural applications. Its slim profile allows for discreet integration into narrow or detail-driven spaces, supporting clean lines while maintaining strong visual impact.

Available in three standard lengths, it offers the flexibility to adapt to a wide range of project requirements, from subtle accents to continuous linear lighting designs. The use of discrete RGBW LEDs ensures accurate color mixing and vibrant output, providing both dynamic lighting effects and high-quality white illumination.

Engineered for performance and reliability, LUMABAR N SW combines precise optical control with uniform light distribution, ensuring consistency throughout the installation. Its balance of compact design, color fidelity, and flexibility makes it a dependable solution for projects that require both creative expression and architectural precision.

Voltage:

110-277V
24V

Material:

HOUSING MATERIAL: 6063 High Density Extruded Aluminum Alloy
LENS MATERIAL: Optical grade PMMA
COVER: Silk screen tempered glass

Lighting:

LED

IP Rating:

IP 66

Due to the dynamic nature of lighting products and the associated technologies, luminaire data on all specification sheets is subject to change at the discretion of Gordon Bullard LLC and associated companies.
