# LUMABAR SW RGBW

Fixture Type:

Project Name:

Notes:

**General Information:**

LUMABAR SW is a versatile linear lighting solution developed for seamless integration into contemporary architectural environments. Its refined, low-profile design allows it to blend effortlessly into ceilings, walls, or custom-built elements, supporting clean visual lines while enhancing the overall spatial experience.

Offered in three standard lengths, LUMABAR SW provides the flexibility needed to accommodate a wide variety of project scales and layouts—from subtle accent lighting to continuous linear installations. Its modular nature makes it easy to configure, ensuring consistency across different applications while simplifying the design and planning process.

Designed with efficiency and practicality in mind, the system supports straightforward installation and dependable long-term operation. Its robust construction and consistent quality make it a reliable choice for architects and designers seeking a balance between performance, elegance, and adaptability in modern lighting solutions.
