Slide Post Top Mount

FEATURES

- Versatile, transitional designed decorative luminaire, created to yield the ultimate in flexibility in LED post top, pendant and catenary Lighting
- Featuring two different optical technologies, Strike and Micro Strike Optics, which provide the best distribution patterns for retrofit or new construction
- Shade and ring options available to enhance the product design and match any application
- Frosted lens option available based on up light and glare concerns. No lens option is also available as optical chamber is completely sealed.
- Control options including photo control, NX Lighting Controls™, programmed timer-based controls and 7-Pin with networked controls

CONTROL TECHNOLOGY

SPECIFICATIONS

CONSTRUCTION

- Driver housing is made of die-cast aluminum
- Shade shall be made from a one-piece aluminum spinning
- Corrosion resistant, die-cast aluminum housing with 1000 hour powder coat paint finish
- For post top configuration, housing is to be mounted over a 2 3/8" to 3" tenon and held in place with 6 set screws
- External hardware is stainless steel
- Frosted lenses are made from a durable acrylic material

OPTICS

- Micro Strike Optics (80L LED count) maximize uniformity in applications and come standard with mid-power LEDs which evenly illuminate the entire luminous surface area to provide a low glare appearance. Catalog logic found on page 2
- Strike Optics (18L LED count) provide best in class distributions and maximum pole spacing in new applications with high powered LEDs. Strike optics are held in place with a polycarbonate bezel to mimic the appearance of the Micro Strike Optics so both solutions can be combined on the same application. Catalog logic found on page 3
- Both optics maximize target zone illumination with minimal losses at the house-side, reducing light trespass issues. Additional backlight control shields can be added for further reduction of illumination behind the pole
- One-piece silicone gasket ensures a weatherproof seal
- No lens configurations are full cutoff with zero up-light
- All optics are field and factory rotatable
- Listed to UL1598 and CSA22.2 #250.0-24 for wet locations and 40C ambient temperatures

ELECTRICAL

- Universal 120-277 VAC or 347-480 VAC input voltage, 50/60 Hz
- Ambient operating temperature -40°C to 40°C
- Drivers have greater than 90% power factor and less than 20% THD
- LED drivers have output power over-voltage, over-current protection, and short circuit protection with auto recovery
- Field replaceable surge protection device provides 20kA protection meeting ANSI/ IEEE C62.41.2 Category C High and Surge Location Category C3; Automatically takes fixture off-line for protection when device is compromised

CONTROLS

- 0- 10V Dimming Drivers are standard and dimming leads are extended out of the luminaire unless control options require connection to the dimming leads. Must specify if wiring leads are to be greater than the 6" standard
- NX Lighting Controls™ available with in fixture wireless control module, features dimming and occupancy sensor
- The housing is designed for an optional twist lock photo control receptacle

CERTIFICATIONS

- Listed to UL1598 and CSA C22.2#250.0- 24 for wet locations and 40°C ambient temperatures
- 1.5 G rated for ANSI C136.31 high vibration applications
- Luminaire light engine is IP65 rated
- Meets IDA recommendations using 3K CCT configuration with no lensing
- This product meets federal procurement law requirements under the Buy American Act (FAR 52.225-9) and Trade Agreements Act (FAR 52.225-11). See Buy America(n) Solutions (link to <https://www.currentlighting.com/resources/americasolutions>)

WARRANTY

- 5 year warranty

PROGRAMMED CONTROLS

ADD-AutoDim Timer Based Options

- Light delay options from 1-9 hours after the light is turned on to dim the light by 10-100%. To return the luminaire to its original light level there are dim return options from 1-9 hours after the light has been dimmed previously.

EX: ADD-6-5-R6

ADD CONTROL OPTIONS	CONFIGURATIONS CHOICES	EXAMPLE CHOICE PICKED
Auto-Dim Options	1-9 Hours	6 - Delay 6 hours
Auto-Dim Brightness	10-100% Brightness	5 - Dim to 50% brightness
Auto-Dim Return	Delay 0-9 Hours	R6 - Return to full output after 6 hours

ADT-AutoDim Time of Day Based Option

- Light delay options from 1AM-9PM after the light is turned on to dim the light by 10-100%. To return the luminaire to its original light level there are dim return options from 1AM-9PM after the light has been dimmed previously.

EX: ADT-6-5-R6

ADD CONTROL OPTIONS	CONFIGURATIONS CHOICES	EXAMPLE CHOICE PICKED
Auto-Dim Options	12-3 AM and 6-11 PM	6 - Dim at 6PM
Auto-Dim Brightness	10-100% Brightness	5 - Dim to 50%
Auto-Dim Return	12-6 AM and 9-11P	R6 - Return to full output at 6AM
