

LINES 

FORWARD

AT EVERY TURN

LINES FITS, EVERYWHERE

Use Lines as part of a simple or complex layout, as discrete or continuous elements in suspended or wall-mounted configurations. Lines—an optimal balance of diminutive design and performance, without compromise.

Lines complements Profile, Portal, and Hyphen families.

MINIMALISM MEETS MINISCULE

Clean, modern and miniature, Lines mimics the height and width of the Portal pendant, and shares the same narrow-gauge integrated power and suspension cord. Multiple distributions and pivoting connections offer immeasurable design potential.

Integrated power and suspension $\frac{1}{8}$ " in diameter

$\frac{3.19"}{81 \text{ mm}}$

$\frac{0.71"}{18 \text{ mm}}$

SCALE 1:1

INSPIRATION INTERSECTS

Use 1, 2, 3, 4, 6 or 8 ft sections, multi-way pivots and wall mounts to join and diverge lines, shapes and patterns. Open and closed. Ceiling and wall.

A LINEAGE CONTINUED

Lines—a family of discrete and interconnected luminaires gives designers new ways to realize their vision. Now expanded with Onwall and Cantilever versions with an asymmetric distribution to light from the perimeter of any space.

PRECISION COMFORT CONTROL

Direct and indirect distributions address a broad range of applications with exceptional uniformity and lower energy densities.

Proprietary optics transform individual bright point sources into a homogenized spread of light with accurate and consistent color.

Precise control and extraction features shape the light into high performance distributions with maximum visual comfort and efficacies exceeding 140 lm/w.
