

MERIDIAN
SERIES

EXTERIOR WALL SCONCES

LIGHTWAY INDUSTRIES

Lightway's Meridian Series includes the standard Half Round, Shielded Dakota, Specialty Variations, as well as the Rectangle, and Narrow collections. All collections in our best-selling Meridian Series are Wet Listed and made-to-order in America to satisfy your custom accommodations. Shipments include universal hardware and a 5-year warranty on LED components. Choosing to install Lightway's Meridian Series is an investment in your building's value and improvement.

Outdoor lighting provides safety and security around your property while adding curbside appeal by highlighting the building décor and natural landscaping. Our industrial-grade outdoor sconces cast light against the wall they have been mounted on as well as the immediate surroundings. Lightway's Meridian Series offers fixtures perfect for hospitality, multifamily, commercial, and residential establishments or pathways.

LED: 90% more energy-efficiency than an incandescent light bulb. Pros of our replaceable LED modules include brighter illumination, and longevity.

Wet Listed: UL and CUL inspected; these components withstand particularly harsh conditions, such as direct wind, rain, heat, sunlight, and seawater breezes.

ADA Compliant: Several fixtures in this series meet the Americans with Disabilities Act standards in size and installation.

Dimmable: All products include standard dimming via 0-10v interface.

Backup Battery: During a power outage the CEC compliant integrated battery automatically activates to provide at least 90 minutes of reliable emergency lighting.

Photocell: These integral sensors activate the fixture to illuminate when day turns to night.

Specialty Variations

You are sure to find the style and size fixture for any project in our Specialty Collection. Our Specialty Collection comes in a variety of finishes and powder coats. The top and bottom lights give off a pleasant wall illumination. Each cage design uses subtle and clean lines, making them a versatile option for all outdoor applications. The fixtures in the Specialty Collection have a similar construction as the Standard Collection with additional steel housing component features.

- Optional integral battery backup and photocell
- 5-year warranty on LED components
- Available LED dimming driver, up to 10%
- Multiple light sources available

MEDW 
• (600 LED)

- White powder coated solid shield looks like a lens during daytime, only downward light at night

MIAW
• (900 LED)

- Partial shield with decor slots that admit light

MFRW

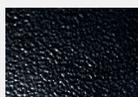

- (600/900/1100 LED)
- Steel finned plates create a dynamic appearance

Narrow Collection

The Narrow Collection can be made to look sleek and simple or creature and unique to fit any design vision. This collection is known for its slender 3 ½" width and 3" depth. These fixtures are made with steel housing and chassis, in addition to its vandal-resistant polycarbonate diffuser—all components in the collection mount on a 2x4 jbox or 4" square post. Customize any form and cover with two different finishes or powder coats. Battery backups are available for specific sizes. The Narrow Collection can be made to look sleek and simple, or creative and unique, to fit any design vision. These fixtures come in 5 heights; 13", 26", 38", and 50".

NEAW 

- Little direct light aside from playful laser cut design
- Pairs well with chrome or brass finishes, attractive in daytime and night

NEBW 

- Modern skyscraper pattern of horizontal cut-outs
- Adds style and interest for both residential and commercial exteriors.

NECW 

- Generates strong direct light from exposed lens
- Simple and timeless design for all exterior facades

NEFW 

- Side-lit design produces pleasant indirect light
- Various choices of powder coats and metal finishes for front face
